

Press Brake Operator POSITION

Press Brake Operator Position:

- Needs to be able to lift 50 pounds repetitively
- Fork truck experience is a plus
- Press Brake experience is preferred
- Several years experience in the manufacturing environment
- Able to read calipers, height gauges, angle gauges
- Able to read manufacturing blue prints
- Some computer knowledge

But more than any of the above we are looking for a long-term candidate who are self-motivated, energetic, trainable and eager to learn who are able to stay on task with minimal supervision.

The ideal candidate would meet the criteria below:

Press Brake Operator:

- Press brake experience in a production manufacturing environment
- Possess knowledge of manufacturing principles and techniques
- Experienced in operation and setup of various manufacturing machinery including press brakes
- Must be able to read, interpret, and work from blue prints and drawings; understand geometric dimensioning and tolerancing; process instructions and job setup sheets.
- Able to do your own setups, be able to inspect your own parts, follow written and oral instructions, and work in a team environment.
- Layout and inspect parts using various inspection equipment and techniques including, but not limited to calipers, height gauges, angle gauges, indicators, and functional gauges.
- Must have the tools to do the job, including measurement tools, and standard manufacturing tools.
- Be able to lift 50 pounds repetitively, pass drug and background check and have good attendance, good work ethic, and trainability.
